Globes, Jars, Laboratory Glassware

THERMAGUARD® **SHATTERPROOF HEAT LAMPS**

Glass Surface Systems is proud to have approval to use Teflon line of coatings. This is one more reason we are able to produce superior shatter resistant coatings. GSS maintains a large inventory of high temperature Teflon coated heat lamps in all sizes including Clear and Red 75watt - 375Watt BR40 heat lamps. Teflon can take the heat. Chemically resistant with unsurpassed clarity. GSS has unmatched production capacity on our entire Thermaguard line of lamps, giving unbeatable turnaround time on your orders.
